Once you get enough free robux, just go back to your game account and manage it and then you will be able to buy cool items or invest in some cool weapons as well.

On May 16th, 2018, ROBLOX announced that they were updating their "Terms of Service" section of the website to disallow using custom models or code to explicitly gain any sort of advantage in-game. They also block users from uploading custom model and code files.[20]

If you don't want to take this serious then stop reading now, but if you want to see what I'm talking about, continue reading. You might feel a little confused about what I'm trying to say but I'll explain it further below.

It's possible to use Roblox as a peephole into other people's accounts - this can be done by using third-party software like PeepHole to install backdoor with root privileges for the account. Because it has such wide availability on each device, it is an easy way for hackers to compromise multiple devices in one go. It was reported that 2-3 billion public profiles were compromised in Brazil alone in June 2018 and April 2018!

ROBLOX collects account information from users using its Trusted ID system. The process is designed to make it easier for ROBLOX to provide players with a personalized experience and more opportunities to earn credits online. The program does treat user privacy concerns seriously, however, and requires notice before any account information becomes public. Players can adjust their personal settings on their profile page on the website.
